

ELTR 2472 : In-Plant Training

2 credit hours (0 lecture/10 lab)

Two credit hours will be granted to a student for 2,000 hours of work experience. The student must be enrolled in the Industrial Electrical Technology program and be or have been employed in the electrical field. Written verification from the employer must be provided to the dean. The student will prepare a paper documenting the various skills and professional benefits obtained from his or her experiences during the 2,000 hours. This paper will describe duties performed, equipment operation training, various job sites, any skilled performance tests taken, any training or instruction given and all electrical installations made. This paper will be evaluated by the program staff.
